

	Memory	Orientation	Judgment & Problem Solving	Community Affairs	Home & Hobbies	Personal Care
None 0	No memory loss or slight, inconsistent forgetfulness	Fully oriented	Solves everyday problems & financial affairs well; judgment good in relation to past performance	Independent function at usual level in job, shopping, volunteer and social groups	Life at home, hobbies, intellectual interests well-maintained	Fully capable of self care
Questionable 0.5	Consistent slight forgetfulness; partial recollection of events	Fully oriented except for slight difficulty with time relationships	Slight impairment in solving problems, similarities, differences	Slight impairment in these activities	Life at home, hobbies intellectual interests slightly impaired	Fully capable of self care
Mild 1	Moderate memory loss; more marked for recent events; defect interferes with everyday activities	Moderate difficulty with time relationships; oriented for place at examination; may have geographic disorientation elsewhere	Moderate difficulty in handling problems, similarities, differences; social judgment usually maintained	Unable to function independently at these activities though may still be engaged in some; appears normal to casual inspection	Mild but definite impairment of function at home; more difficult chores abandoned; more complicated hobbies and interests abandoned	Needs prompting
Moderate 2	Severe memory loss; only highly learned material retained; new material rapidly lost	Severe difficulty with time relationships; usually disoriented in time, often to place	Severely impaired in handling problems, similarities, differences; social judgment usually impaired	No pretense of independent function outside home. Appears well enough to be taken to functions outside family home.	Only simple chores preserved, very restricted interests, poorly sustained	Requires assistance in dressing, hygiene, keeping of personal effects
Severe 3	Severe memory loss; only fragments remain	Oriented to person only	Unable to make judgments or solve problems	No pretense of independent function outside home. Appears too ill to be taken to functions outside family home	No significant function in home	Requires much help with personal care; frequent incontinence
Subitem Scores	_____	_____	_____	_____	_____	_____

Although rules for assigning CDR stages beyond CDR 3 have not been established, the following have been proposed to distinguish additional levels in advanced dementia:

Profound 4	Speech usually unintelligible or irrelevant; unable to follow simple instructions or comprehend commands; Occasionally recognizes spouse or caregiver. Uses fingers more than utensils, requires much assistance. Frequently incontinent despite assistance or training. Able to walk a few steps with help; usually chair-bound; rarely out of residence; purposeless movements often present.
Terminal 5	No responses or comprehension. No recognition. Needs to be fed, may have NG tube and/or swallowing difficulties. Total incontinence. Bedridden, unable to sit or stand, contractures
